

	Product Specification Medium	Date: 10.06.2010 Version: 2 Prepared by: CEO
	Cold Water Prawns in brine with sweetener	

Product: Cold water prawns in brine
Ingredients: Prawns (*Pandalus borealis*). Brine: Water, salt, acidifiers (E330, E334, E331), preservatives (E211, E202), stabiliser (E466), sweetener (E954).

Storage:
Max. 5°C
BBE: 6 weeks from day of production
Once opened keep prawns covered in brine and use within 7 days of opening.

Quality:	Target:	Method:	Nutritional:	
			Content per 100 g	
Count	250-350/lb	Counting: Number of prawns per 454 g	Energy KJ	289
Bits	< 5%	Counting: Max. 5% ≤ size 1.0 cm	Energy Kcal	65
Yellow	<5%	Visual check	Protein	15
Unpeeled	<3%	Counting: pcs/pcs%	Carbohydrate	0
Salt	2.5% ± 0.2	Analysis: Amount of sodium chloride in prawns	Fat	1
pH	5.5 ± 0.3	Analysis: pH in brine	Salt	2.5

Microbiology (results during first week after production):

Bacteria	Target	Accepted	Method
TVC	5,000	25,000	NMKL 96
Enterococcus	<100	<100	NMKL 68
Staph. Aureus	<100	<100	NMKL 66
Thermo coliform	<10	<10	NMKL 125
Enterobacteriaceae	<10	<10	NMKL 144
Lactobacillus	<100	<100	NMKL 140
Pseudomonas	<100	<100	Kings agar

GMO status:
Contains no components (ingredients, additives, etc.) made from genetically modified material

Allergen status:
Contains shellfish

Metal detection:	Fe:	Non-Fe:	SS:
	2.5 mm	4.0 mm	5.0 mm

Packaging material: Tubs: white, clear plastic (PP), snap on lid Tray: cardboard, polystyrene (PS) Shrink wrap: clear	Labelling: Aut no. DK 4135 EC Ingredients, use by date, weight, storage information (other information as agreed)
